

America's Stonehenge

An Interactive Journey

Name: _____

Date: _____

Class: _____

As you tour the site of America's Stonehenge, look and listen for clues. Record your observations in the table below:

| Structures and People | Question | Answer |
|------------------------------------|--|---|
| William Goodwin | What was his biggest contribution to the site? | Erecting the fence to protect the structures of the site. |
| #8: Upper Well | What type of crystals were found in this well? | Quartz crystals. |
| #10: Pattee Area | What was it used for? | It was used as the foundation/basement of Jonathan Pattee's house. Chamber was also used as a stop on the Underground Railroad. |
| Jonathan Pattee | What important movement did he take part in? | The Underground Railroad. Jonathan Pattee also cared for the town poor (paupers) from 1821-1838. |
| #19: East-West Chamber | What is the nickname for this chamber? | "The Tomb of Lost Souls." |
| #28: The Oracle Chamber | Why was this chamber named the "Oracle Chamber"? | Because of the speaking tube, which comes out below the Sacrificial Table, making it appear as if the Table could speak. |
| #30: Astronomical Viewing Platform | What features can be seen from the top of this platform? | The astronomical alignment stones, which mark the solstices, equinoxes, and cross-quarter days. |
| #31: Sacrificial Table | How much does the table weigh? | 4.5 tons, or 9,000 pounds. |
